Appendix Table 1. Perceived advantages and barriers of virtual interviews.

| Advantage | N (%) | Barrier | N (%) |
|---|---|---|---|
| Time efficiency | 108 (81.2) | Technological issues | 27 (20.5) |
| Reduced carbon footprint | 81 (61.4) | Caregiving duties | 24 (18.2) |
| Cost savings | 74 (56.1) | Access to an appropriate interview setting | 21 (15.9) |
| Less burdensome to schedule | 65 (49.2) | Other | 15 (11.4) |
| Reduced burden in the setting of pregnancy or breastfeeding | 25 (18.9) | Increased stress/anxiety vs in-person format | 13 (9.8) |
| Reduced stress/anxiety vs in-person format | 21 (15.9) | Reliable access to internet | 11 (8.3) |
| Reduced burden in the setting of obtaining child/dependent care | 18 (13.6) | Time zone differences | 7 (5.3) |
| Other | 6 (4.5) | Challenges in pregnancy/breastfeeding | 3 (2.3) |
| Reduced burden in the setting of a mobility impairment | 5 (3.4) | Obtaining access to equipment or software | 2 (1.5) |
| Reduced burden related to a sensory impairment (e.g. visual, auditory) | 2 (1.5) | Sensory impairment | 1 (.8) |
| Reduced burden related to mental or emotional condition | 1 (.8) | Mental or emotional condition | 0 |
